

**Zirax has signed the agreement with Saudi Arabia company Dynamic Energy.**

Zirax, a company whose area of operation includes development of technologies, production and sales of specialty process chemicals used in oil & gas, foods, construction, home care chemicals and cosmetics as well as other industries, has signed the agreement with Dynamic Energy (KSA) to promote new and advanced technologies for oil and gas industry of Saudi Arabia.

Commenting signing the agreement Head of Zirax Overseas department Anna Shevchenko said: "We have been supplying oil and gas companies with our effective chemical solutions in Russia and all over the world for a long period time. It is obvious that oil and gas companies are looking for new reagents that can deal with their current tasks as well as new challenges. We, as developers and manufacturers of such solutions, are doing and going to do all required to provide this, especially with a new opportunity to license, localize and manufacture some of our chemical solutions in Saudi Arabia. We are truly interested in success stories with our customers and hope that our chemicals produced in Saudi Arabia will find their customers in all GCC countries".

Zirax is one of the leading oilfield chemicals producer and service organization focused to develop, produce and market range of production and stimulation chemicals as well as Calcium Chloride based brine fluids for oil drilling, completions and work over services. Major part of these solutions have been effectively used for many years by leading oil & gas companies adding each time positive case history to company profile. Zirax logistics team provides its worldwide customer base in Russia, FSU countries, Asia, GCC, North Sea and North America with high-end quality "door to door" delivery service of oil production and stimulation chemicals and various multi-component brines.
